

THE BLUE TRAIN

2 Days / 1 Night

The World renowned Blue Train provides contemporary luxury and 24 hour service. It has been voted the "world's leading luxury train" at the World Travel Awards for four years running. Its interior design, service and luxury compare with top five star hotels. Each suite on board the train has an en-suite bathroom with bathtub or shower, a telephone, TV monitor and individually controlled air conditioner. There are four suites per coach and a professionally trained butler is on duty on every coach to cater to the needs of his guests. Professional chefs prepare world class cuisine for every meal and a choice of the finest wines is served to compliment meals.

The Club Car is designed along the lines of an old gentleman's club for those who enjoy a good port wine and after dinner cigar or coffee. A large video screen provides a view of the scenery ahead of the train, courtesy of a camera mounted on the locomotive. For non-smokers, the Lounge Car provides a smoke free environment where high tea, various beverages and snacks are served. Each route offers a very different perspective of the Southern African landscape, from flat open plains to rolling hills and mountains and viewed from the comfort of one of the prestigious trains in the World
