## VILLAGE VISITS

*There are hundreds of villages in Kenya but these villages are very special to African Travel Specialists. We support them strongly and clients are delighted with the interaction they experience when visiting them. If you are visiting these areas on one of our safaris, we will include a half day visit to any of these villages for free - we only ask for a US\$20 per person donation be paid directly to the village. There are many other villages that we support both in Kenya and in parts of Tanzania, such as Ngorongoro Crater and Serengeti. Please contact African Travel Specialists for further details to include a village visit in your itinerary. Here are three of our favourites:*

### RICHARD'S CAMP - MASAI MARA

This Masai village is located in the heart of the Masai Mara, not far from Olonana Lodge, one of the most beautiful lodges in the Mara. It is one of the friendliest villages and most welcoming in Kenya. The village and its people are closest to the heart of Richard Ruskin, African Travel Specialists' Managing Director. Richard was given the highest honour by being "named" as a Masai into the village - a rarity for a Muzungu (white person), and even rarer for a non-Kenyan Muzungu. It is a great opportunity to see Masai culture up close and personal.

### JOSPHEAT'S VILLAGE - SAMBURU

This village is located in Samburu, Northern Kenya. The people of the village are very friendly and welcoming. A visit to this village gives you a great opportunity to see a village in one of the harshest environments in East Africa. It is very different to a Masai village in both the style of the huts and the look and dress of the people. One of the great highlights of a visit to this village is being invited inside one of the family's homes and meeting their family. Also there is an opportunity to see how fire is made, various traditional dances, and learn about how the village operates.

### IPITEK'S VILLAGE - AMBOSELI

This Masai village is located in Amboseli and is one of the most pro-active in Amboseli. With the help of our clients and our support, the village has successfully survived one of the worst droughts in Kenya's history. Financial support has been given in order that the village could replenish their stock of cows, goats and sheep as well as plans for a bore hole to be dug. Over the last few years support has now seen the construction and operation of a two room school just near the village. All the clients who have visited the school have voted it as one of the most moving and special visits they experienced on the whole safari.
